

8th Grade School Supplies 2018-2019 for ELA, Science, Math, and Social Studies:

- **A pencil case is needed** to hold the supply requirements for ALL classes (ELA, science, math, and social science)
- No need to duplicate supplies that are carried together in one pencil case. For example, the 1 calculator fulfills the requirement of calculator for Science and Math.
- A calculator must fit in and be carried in the pencil case with other loose items.

***NOTE on BINDERS:**

- The lockers have a **maximum depth of 10.75 inches (27.5 cm)**.
- Do not purchase binders that exceed this measurement **because the lockers will not close** and personal belongings will not be secure.
- Some STAPLES binders do not fit. Please check before purchasing.
- Different colors for each subject is an effective organizational tool for many students.

To be replenished/replaced throughout the year:

Check supplies at the end of each marking period

- pencils (lead and erasers)
- pens
- loose leaf paper
- dry erase markers
- damaged binders
- lost or damaged calculators
- index cards
- damaged binders and/or folders

**** NOTE on CALCULATORS:**

- Calculators are used in Science **and** Math.
- **Scientific** calculators have an exponential function: $^{\wedge}$ (i.e. the TI-30, TI-34, or equivalent).
- **Graphing** calculators are expensive, but the high school encourages using them and they are the calculator that must be used on the ALGEBRA 1 PARCC
- Write full name in **permanent marker** on the BODY of the calculator, **not the lid**.
- A student's calculator should **be able to fit** in and ALWAYS stay in the pencil case for ELA, science, math, and social science.

SUPPLIES BY SUBJECT:

General Supplies:

- Loose leaf paper (put a little in **each** binder and **replenish regularly**)
- pencil(s) including erasers and/or lead
- pen(s)
- (1) pencil case large enough to hold loose supplies including a calculator
